4th International
Trade Fair & Conference

27-29 April 2022
Hall No. 12 & 12A,
Pragati Maidan, New Delhi

3-day Trade Fair | 2-day Conference | Live Demonstrations | B2B Meetings

India has the fourth-highest wind installed capacity in the world with a total installed capacity of around 40 GW (as of December 2021). In the recent assessment done by the National Institute of Wind Energy (NIWE), the gross wind potential was estimated to be 302 GW in the country at 100 meters and 695.50 GW at 120 meters above ground level. With this massive potential, India is also increasingly producing its requirement of energy from renewable sources. Increasingly competitive and attracting more investment yearly, the wind sector is set to thrive in the 21st Century.

Windergy India 2022 is being organised at a time when the wind sector in India is on the cusp of exponential growth that is attracting considerable interest globally.

Featuring alongside the tradefair, the 2 day WINDERGY India conference titled "Power of the Wind: India's Driver to Net-Zero", will be organised on 27 and 28 April 2022. High-level key note speeches, thought-provoking panel discussions, special addresses and technology presentations are part of the conference.

Focus Topics:

- Indian Wind Market 2.0 – CEO's Perspective
- Future of Electricity Demand
- Keeping Pace with the Advancing Technology
- Interface with Government Stakeholders
- Efficient Integration of Variable Renewable Energy into the Grid
- Changing Regulatory Landscape in the Power Sector
- Testing New Waters –Offshore

The conference is relevant to professionals who are a part of the wind energy sector, including Government Authorities, Policy Makers, Regulatory Authorities, OEM's, Project Developers, Technology Service Providers, Operation & Maintenance, Financial Institutions, Banks Investors, Industry Associates and others. You can check the conference agenda here <https://www.windergy.in/agenda>.

Due to the pandemic related travel restrictions, we have opened the conference for virtual participation for international participants.

Participation Fee

Per Delegate* (Access for two days)	US\$ 150+ 18% GST
